

## **ENERGY EVALUATOR/TECHNICIAN ASSISTANT**

It's On Electric Company is an electrical contractor and energy management consulting firm, involved with large scale program delivery of energy conservation programs throughout BC. We are currently working on the Energy Conservation Assistance Program (ECAP) offered by BC Hydro Powersmart that provides qualified moderate to low-income BC Hydro residential account holders with a home energy evaluation, the installation of energy saving products, and personalized energy efficiency advice, at no cost to the participant.

We are currently looking to add to our team, and hire assistants for our energy evaluator/ technician assistant to help with energy evaluations of homes identifying energy saving opportunities, and then install various simple energy and water saving measures in homes and apartments. Assistants will be responsible for loading in all products/tools, unpackaging products, loading up all garbage/recycling, and ensuring that the vans are kept neat and organized.

Assistants will be required to meet the lead energy evaluator at their home base of South Surrey/White Rock/Langley each morning, to ride together to jobs. Or can meet on job sites throughout the Lower Mainland and Fraser Valley. A T2200 will be provided to anyone that wishes to use their own vehicle to claim vehicle employment tax credits.

The position can be part-time or full-time, but working hours are typically between 8:30-4:30PM or 9:00AM-5:00PM per day.

We are looking to hire a total of 3 people to fill these positions.

### **RESPONSIBILITIES:**

- Attend training and education meetings with BC Hydro and the It's On Electric team.
- Assist with the evaluation of residential homes and apartments to determine what energy and water saving opportunities are available, and working with the lead evaluator to record this information onto a provided iPad.
- Work with the lead evaluator to install the following residential energy and water saving measures according to Program Standards:
  - LED light bulbs - Regular, Globes, Pot light bulbs
  - Bathroom faucet aerators
  - Kitchen faucet aerators
  - LED plug in nightlights
  - Low Flow Shower heads (Fixed and handheld)
  - Refrigerator/Freezer thermometers
  - Weatherstripping and pipe wrap
  - Carbon monoxide sensors - plug in, and battery operated
- Assist with the education of homeowners on the measures installed, and provide tips on further energy saving opportunities within the home.
- Complete all work in accordance with the company health and safety policies and Worksafe BC regulations

## **REQUIREMENTS**

- Must be double vaccinated, as per BC Hydro contractor requirements to enter customer homes.
- Must pass a Criminal Record and Vulnerable Sector Check, and be willing to have completed every year.
- Excellent communication skills - both verbal and written
- Mechanically inclined - Must have experience using small hand tools.
- Able to work well independently or as part of a team
- Committed to the highest level of safety standards
- Punctual and reliable
- Valid BC Driver's Class 5 license and a clean driving record is an asset

There may be the opportunity to travel and service other regions of BC for anyone motivated and interested. If this is something that you would be interested in, please note this in your email.

We thank all candidates in advance for your submission.

Job Types: Full-time, Part-time

Salary: \$19.00-\$21.00 per hour + benefits after 3 months
