

Free energy-saving upgrades for residents of the District of Hope

This program is administered by **It's On Electric Company** in partnership with **BC Hydro Powersmart**. The Community Energy Efficiency Program provides residents with electric heating or electric hot water tanks, with **FREE** home energy assessments and installation of energy-saving products, which may include:

This offer is **FREE** for residents of Hope and easy to take part in!

If you are electrically heated or have an electric hot water tank, one of our trained technicians will install energy saving products, conduct an energy assessment of your home, and answer any energy efficiency questions you may have, saving you money and increasing the comfort of your home. Products installed may vary based on home characteristics. Gas heated homes will receive a kit for self-installation. Some conditions apply. Participation is limited.

Visit **www.itsonelectric.com/hope-energy-efficiency-program**, call or text us at **1-800-874-3831** or email us at **hopedirectinstall@itsonelectric.com** to apply to this program.
